frequently asked questions

Are all PowerBright products safe to use on clients who are pregnant or nursing?

Product safety is our priority. Our products are created within recognized safety guidelines and under assessment by an independent assessor and pregnancy is also taken into account.

Nevertheless, we advise to always review any applicable warnings on the pack before application, check the product ingredient list when having any known allergies, and to consult a medical professional for any specific concerns when pregnant or breastfeeding.

Does my client need to use all three PowerBright products to see results?

Not necessarily. Each product is efficient and effective when used alone; however, clients will see amplified results more quickly when using all three products.

How long will it take my client to see results when using PowerBright Dark Spot Serum?

PowerBright Dark Spot Serum will visibly reduce dark spots within days. With continued use, hyperpigmentation will continue to fade over time.
